REINIGUNGSMASCHINEN

## Nilco - your professional business partner

From the day on H.Wilhelm Kicherer has taken our first steps in Stuttgart, Germany in 1961; Nilco is a brand that produces projects for the cleaning and hygiene of industrial areas such as hotels, hospitals, schools, factories, airports, shopping centres all over the world and serves you with the innovations it adds to your life.

With more than 50 years of experience and unarguable quality, Nilco offers a complete system in every sense of industrial floor cleaning and maintenance. Nilco has been gained a place in a Turkish and nearby geography markets within the body of Saruhan Companies since 1985. Nilco enables you to reach an effective cleaning and hygiene standard as well as providing professional solutions with products, system equipment and after-sales services to all sectors that need hygiene and cleaning. Nilco supports its customers with training activities of after sales expert staff. As Nilco, our goal is to provide sustainable customer satisfaction.

We also invite you to experience Nilco products.

We always keep the after-sales satisfaction at the highest level with our wide sales network and technical service services by standing by Nilco customers. We offer superior service quality from spare parts to training and demo demands in every level.

Choosing and applying the correct product for right purpose has importance. Nilco Academy is an academy where the use of products and systems, professional skills and competencies of people according to their level are discussed and trained both theoretically and practically. As Nilco, our goal is able to add plus value to the sector and sector employees.

Nilco offers a wide range of appropriate products such as vacuum machines, wet and dry industrial vacuum machines, floor cleaning and maintenance machines, polishing machines, carpet washing machines, road sweepers for indoor and outdoor applications.

Nilco offers appropriate solutions for the special needs of the customer. Our machines specific to the work has extremely high quality as well as also has the capacity to work with full efficiency. Nilco helps reduce costs by significantly reducing time spent for cleaning.

Nilco offers innovative design, easy-to-use, user-friendly and European-standard products in out-of-home areas such as public buildings, hotel, hospital, cleaning companies, vehicles, workshop and office.

Indigo 36 E  
Indigo 36 B

## Indigo 36 E - 36 B

Provides the opportunity to work efficiently in narrow areas with its compact structure.

Gives excellent results in cleaning even under the most difficult conditions of use.

Electrical and battery- operated options are available.

### FOR SMALL AREAS

- Easy to carry and store with the folding feature of the operating lever
- Offers the easy to use advantage in the cleaning companies, markets, offices, small stores, schools and small narrow areas
- Easily removable brush
- Removable dirty water tank
- Charger is included in the battery-operated model.
- Traceless wheels
- Optional disc can be inserted and used with the help of pad
- Adjustable water release according to the pollution condition

Features	36 E	36 B

Indigo 431 B

Indigo 450 E  
Indigo 450 B PRO

## Indigo 431 E - 431 B

It is produced for medium width floors in the workplaces and industries such as school, retail stores and workshops. Provides superb results in cleaning thanks to the high brush pressure. The machine moves unshakenly and may easily deal with obstacles thanks to its large wheels. The machine pulls itself forward thanks to the brush rotation.

Optional disc can be inserted and used with the help of pad.

Features	431 E	431 B
Voltage (V)	230	24

# Indigo BT 670

Offers deep cleaning opportunity for large areas thanks to its travel motor, easy to use and double brushes.

While 2-brush system follows the wall edges, ensures easy removal of dirt from hard-to-reach areas, floors have a flawless appearance.

Can be used easily in places where there is human traffic by leaving a dry surface thanks to vacuum rubbers providing high suction.

- Optional disc can be inserted and used with the help of pad.
- Hour meter

Features	BT 670

BRC 90

## Indigo BR 750

Provides easy ride and cleaning in narrow and low areas thanks to its ergonomic design. Especially due to its small size, you can pass through the doors and clean the corridors easily.

- Ability to automatically adjust the amount of detergent
- Brush and vacuum rubber lowering-lifting is mechanical
- Automatic brush and water stop system when machine stops
- Gives a good visibility when cleaning, offers easily cleaning in narrow areas thanks to its superior manoeuvrability.
- Optional disc can be inserted and used with the help of pad

Features	BR 750

Weight (kg)	160
Dimensions (cm)	123 x 63 x 121

# Indigo BRX 1100

Easy to drive even in small and medium-sized areas, also provides efficient cleaning comfortable seat, ergonomic use, large tank capacity, 75 cm brushing width.

- Continuous pressure on the brushes over 50 kg
- Large filling tank capacity ensures reducing the number of stops and maximum use of the battery for efficient use of the machine.
- Balanced ride even if the tank is full
- Dirty water tank sight glass for cleaning and daily use. Easy access to electrical connection components
- Anti-foam system
- Automatic brush and water stop system when machine stops
- Self-level adjusting brushes according to the floor
- Automatic rubber lifting system when going back
- Optional disc can be inserted and used with the help of pad

Features	BRX 1100

# Indigo BRX 1500

FLOOR CLEANING AND MAINTENANCE MACHINES

- Large filling tank capacity ensures reducing the number of stops and maximum use of the battery for efficient use of the machine
- Perfect balance even if the tank is full
- High manoeuvrability thanks to independent front wheels
- Easy access to electrical parts
- Automatic vacuum rubber lifting system when reversing
- Automatic brush and detergent input system when machine stops
- Anti-foam system
- Self-lifting brushes
- Optional disc can be inserted and used with the help of pad.

Features	BRX 1500

\*We offer the best performance in cleaning with Nilco Stark.

# Indigo BRX 2048

- Excellent results, comfort, efficiency in floor cleaning.
- Efficient cleaning is achieved by the Nilco Indigo BRX 2048 with large tank capacity, high pressure brushes, wide vacuum rubber, automatic speed adjustment and detergent amount according to dirt type.
- Optimum weight distribution ensures perfect cleaning performance at every point of the floor and its compact structure and strong manoeuvrability allow easy cleaning even if in narrow areas.
- Its unique anti-foam device increases working performance by preventing foam formation.
- Quick discharge of dirty water after cleaning provides effortless cleaning.
- Optional disc can be inserted and used with the help of pad.

Features	BRX 2048
Voltage (V)	36
Operating Width (cm)	102 (2 x 48 cm PP Brush)
Vacuum Width (cm)	125
Max. Operating Capacity (m <sup>2</sup> /s)	7140

Dimensions (cm)	190 x 112 x 145 cm

\*We offer the best performance in cleaning with Nilco Cleanmat

## BRC 90

A combined floor cleaning machine that can sweep and clean the parking lots, warehouses, factories, stations, shopping malls.

- Does not cause to dust raising thanks to its water spray feature.
- When the pre-sweeper brushes meet with obstacles, they close and then open.
- Has maneuverability even if in narrow areas thanks to 86 cm turning circle.
- Brush and vacuum rubber pressure are adjusted either at constant pressure or according to the floor.
- Hour meter, horn, battery charge indicator.

Features	BRC 90
Voltage	24
Sweeping Width (with right front brush) (cm)	88
Sweeping Width (with 2 front brushes) (cm)	106
Operating Width (cm)	85

401

Vario Ultra 550

**ADJUSTABLE HANDLE AND EASY TO USE**

Detergent tank, washing and polishing pads, carpet and hard floor cleaning, hard floor brushes can be used depending of the type of the floor to be applied and operation to be made and the water tank can be assembled easily.

Only powerful induction motors are used in order to control the weight of the machine which cannot be underrated.

- Works in silent.
- Equipped with large wheels for easy carriage.
- High torque belt drive unit is extremely silent and has low vibration. This high torque transmission also ensures maximum cleaning.
- Brush protection absorbing impacts ensures all-round protection to sweeper and furniture.
- Can be used for carpet cleaning with carpet washing brush.

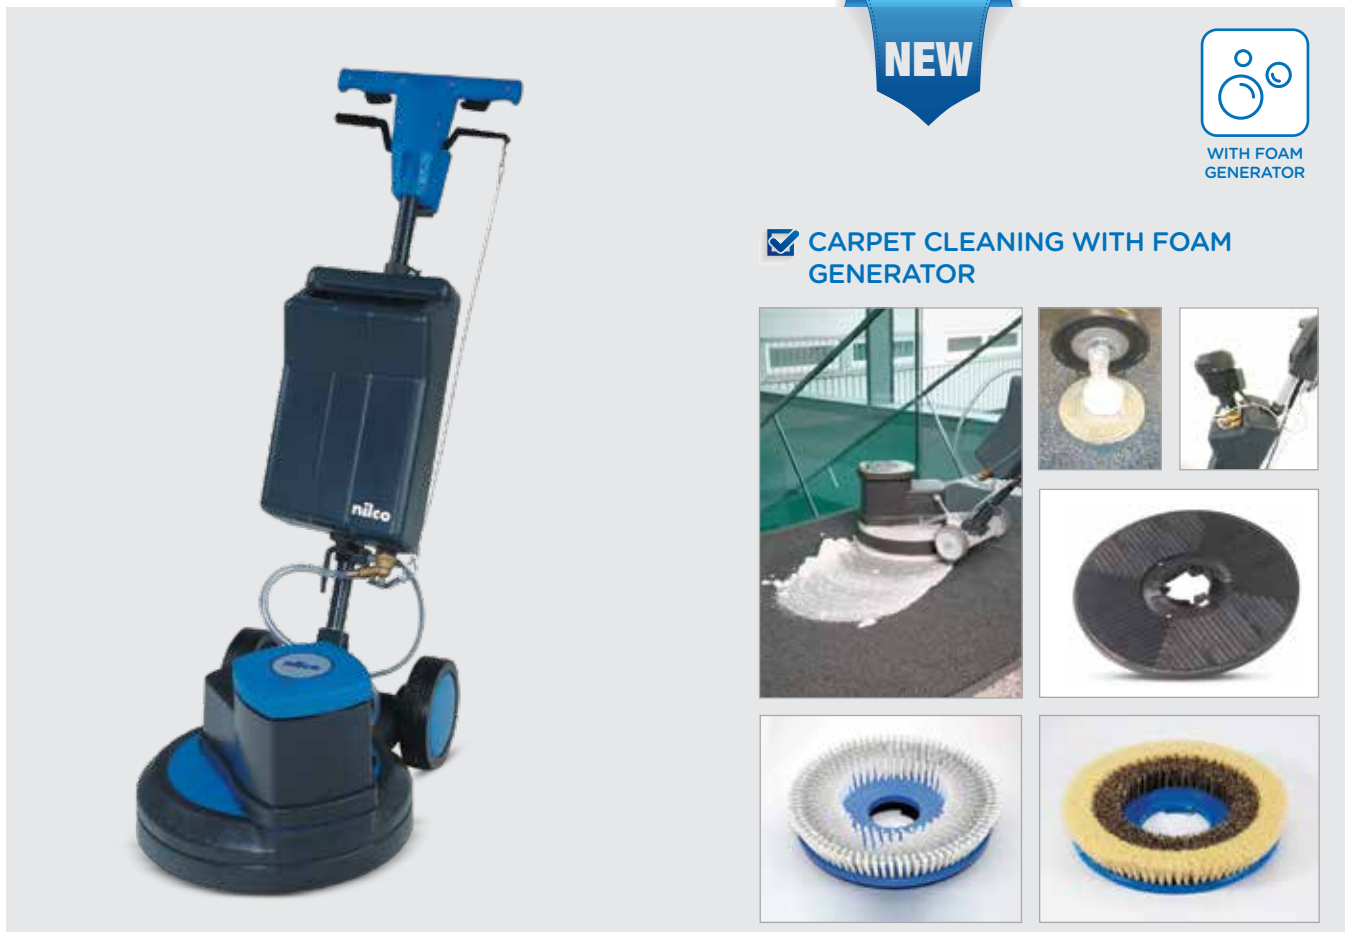

Features	330
Voltage (V)	230
Motor Power (W)	1200
Operating Distance (m)	12.5
Operating Width (mm)	440
Operating Height (mm)	370
Operating Type	Poly-V-belt

\*We offer perfect polishing with Nilco Crystallizer.

FLOOR CLEANING AND POLISHING MACHINES

Detergent tank, wash and polishing pads, carpet and hard floor scrubber, hard floor brushes and polish tank can be easily assembled depending of the type of the floor to be applied and operation to be made.

Produces foam with low humidity. Foam is supplied from the nozzle located in the middle of the bottom of the machine and distributed on the carpet with a carpet brush.

- Ensures faster drying.
- Easy to use.
- Does not cause to fade the carpets.
- Does not damage the carpet.
- Does not leave any smell.
- Water tank
- Foam generator kit
- Carpet brush

Features	401
Voltage (V)	230
Motor Power (W)	1200
Operating Distance (m)	12,5
Operating Width (mm)	430
Operating Type	Pol V kayis
Brush Cycle (Cycle/Min)	165
Sound Level (dB(A))	58
Weight (kg)	34
Dimensions (mm)	49x46x105

We offer perfect cleaning on your carpets with Dry Foam.

# Polishing Machine

## Vario Ultra 550

Allows long-term use by minimizing the vibration reaching to the user. Ensures safe use thanks to its special trigger lock.

Ensures effective shine on the floor in a short time.

- A high speed polishing machine with 1200W power
- Has special driving equipment for left and right movement.
- Disc revolution speed 1100 cycle/min
- Operating width 50 cm
- Easy plug-in accessories

Features	VARIO ULTRA 550
Voltage (V)	230
Motor Power (W)	1320
Operating Distance (m)	20
Operating Width (cm)	53
Operating Height (cm)	15/35

# Dry Vacuum Machine

## S 20 Eco Power

### **SUPER SILENT TECHNOLOGY.**

#### **Quietest, Powerful and Professional Dry Vacuum Machine Developed by Nilco**

- S20 Eco Power is a combination of superior engineering, technical innovation and ergonomic design.
- Ensures comfortable use in hotels, libraries and offices with low sound level.

#### **ECO Power**

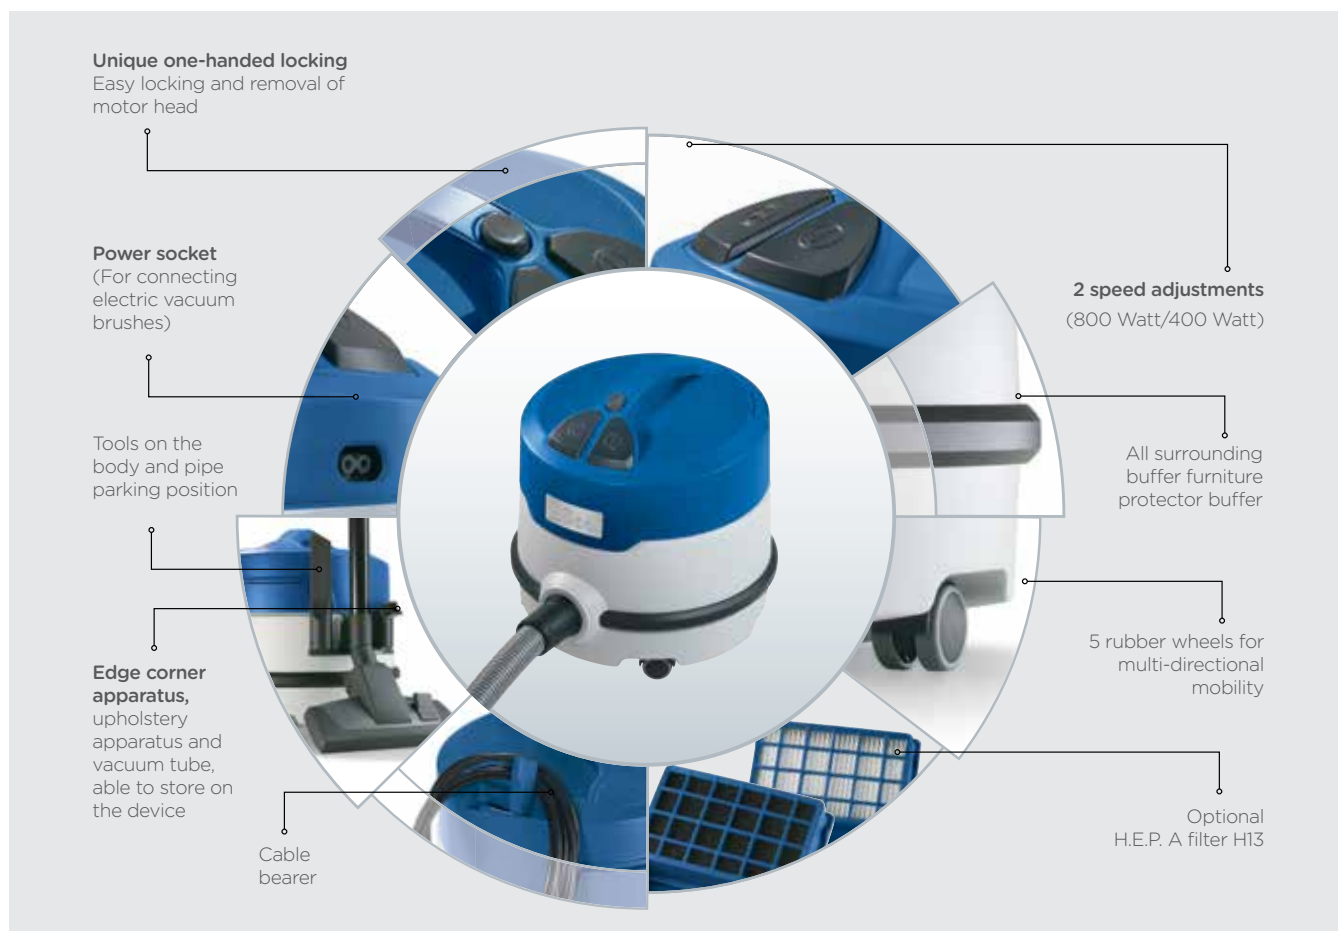

- Compressor technology is ensured by a fast rotating and aerodynamically optimized turbine and this also creates a strong vacuum

#### **Super Silent Technology**

- Super silent technology of the motor is ensured with developed low-vibration bearings, low noise multistage airflow, sound reduction on the body and low noise special vacuum apparatus.

BY TILTING OVER**

VACUUM MACHINES

- Independent operation feature of motors
- Heat resistant stainless steel body
- Buoy System / Motor Protection

**Standard Accessories**

- Plastic vacuum tube
- Elbow controlled vacuum adjustment
- 2,5 m vacuum hose
- Floor cleaning apparatus, Wet floor apparatus, Edge-corner apparatus
- Furniture brush, Textile filter, Star filter

Features	P 310
Voltage (V)	220-240
Max Motor Power (W)	3x1100
Water Lift Pressure (kPa)	20
Air Flow (l/sec)	60
Operating Distance (m)	14
Total Tank Capacity (L)	100
Discharge by Tilting Over	√
Sound Level (dB)	76
Weight (kg)	28
Accessory Diameter (Ø mm)	38
Dimensions (cm)	68x60x104

IC 390

IC 490

S 270

It is used for armchair and carpets cleaning; furthermore, is used when spraying and suction features are required. Practical to use if local cleaning is to be done. Suitable for hospital, Hotel, Office, Mosque cleaning and Car Washing.

- 2 pieces 2 -stage silent motor
- Professional closing hooks
- Fully removable detergent tank
- Ergonomic handle for tank, nozzle and trolley
- Ergonomic filter cleaning
- 10 m electrical cable
- Upholstery cleaning nozzle
- Traceless wheels

Features	IC 390
Max. Motor Power (W)	2400
Cleaning Pressure (bar)	5
Air Flow (L/sec)	108
Water Lift (kpa)	22
Total Tank Capacity (L)	78
Detergent Tank Capacity (L)	11
Weight (kg)	29.5
Dimensions (cm)	62x51x99

\*We offer perfect cleaning on your carpets with Fakir Carpetmatic.

It is used for armchair and carpets cleaning; furthermore, is used when spraying and suction features are required. Especially effective in large area cleaning. Suitable for hospital, Hotel, Office, Mosque cleaning and Car Washing.

- Practical dirty water discharge system (on-site discharge)
- Upholstery cleaning nozzle

Features	IC 490
Max. Motor Power (W)	2400
Cleaning Pressure (bar)	4
Air Flow (L/sec)	117
Water Lift (kpa)	24.7
Total Tank Capacity (L)	62
Detergent Tank Capacity (L)	25
Weight (kg)	31
Dimensions (cm)	62x51x99

\* We offer perfect cleaning on your carpets with Fakir Carpetmatic.

It is used for armchair and carpets cleaning; furthermore, is used when spraying and suction features are required. Especially effective in large area cleaning. Suitable for hospital, Hotel, Office, Mosque cleaning and Car Washing.

- AISI 304 (First class) stainless steel body
- Dirty water tank for easy discharge by tilting over

Features	S270
Max. Motor Power (W)	2200
Pump Pressure (bar)	2x7
Tank Volume (L)	70
Clean Water Tank Capacity (L)	20
Operating Distance (L)	14
Weight (kg)	29,4
Dimensions (cm)	60x86x98

\* We offer perfect cleaning on your carpets with Fakir Carpetmatic.

# OUTER SWEEPERS

Time saving

Labour saving

Easy to use, easy maintenance

Strong vacuum, high air flow

PS 8650

With its high manoeuvrability, it increases efficiency by providing cleaning even if in narrow spaces. Suitable for asphalt, pavement, concrete and hard floors cleanings. Provides safe riding with light warning lamp and reserve warning signal. Suitable to use for hotel, parking lot, warehouse and site areas.

- Side brush vacuum
- Vacuum cut-off system when wet sweeping
- Electrical shaking system
- 120 cm turning circle
- Battery indicator light
- Park brake

Features	PS 8650
Voltage (V)	24
Max. Operating Capacity (m2/h)	6050
Operating width with main roller brush (mm)	624 (390 mm çap)
Operating width with a front brush (mm)	862,5
Operating width with two front brushes (mm)	1100
Collection unit capacity (L)	50
Discharge system	Manuel
Filter (m2)	3
Max. speed (km/h)	6,5
Max. slope (%)	12
Energy type	Batarya
Total power (W)	940
Dimensions (mm)	1240x885x1120
Weight (kg)	185

## Cleaning chemicals for floor cleaning and maintenance machines

ADVANCED FLOOR CARE CHEMICALS

### ALKOHOLREINIGER

#### FLOOR CLEANING MACHINE ALCOHOL BASED CLEANING CHEMICAL

An alcohol-based, foam controlled surface cleaning product. It can be used for all water-resistant cleanings. Provides excellent cleaning. Protects natural shine of the cleaned surface, ensures a bright appearance. No rinsing is required. Does not leave trace and stickiness. Dries fast. PH is neutral. Ensures a pleasant scent.

<i>pH (% 1)</i>	6-7
<i>Dosage</i>	Should be diluted in the ratio of 0.05% - 1% according to the tank capacity of the cleaning machines and the density of the dirt
<i>Packing</i>	1 L = 970 g PE Bottle (12 x 1 L parcel)

### NONFOAM CLEANER

#### FLOOR CLEANING MACHINE CLEANING CHEMICAL

It has been formulated for heavy dirt in the industrial facilities, shopping malls, hotels and all industrial areas. Can be used on all alkali resistant surfaces. Foam-controlled. Ensures shiny and stainless cleaning and leaves a pleasant to the environment.

<i>pH (% 1)</i>	10,5-11,5
<i>Dosage</i>	Should be diluted in the ratio of 0.05% - 1% according to the tank capacity of the cleaning machines and the density of the dirt
<i>Packing</i>	20L= 20,4 kg PE Jerry can

### CLEANMAT

#### FLOOR CLEANING MACHINE CLEANING CHEMICAL

It has been formulated for heavy dirt in the industrial facilities, shopping malls, hotels and all industrial areas and is a product suitable to use in vending machines and pressure cleaning machines. Can be used on all alkali resistant surfaces. Foam-controlled. Ensures shiny and stainless cleaning and leaves a pleasant to the environment.

<i>pH (% 1)</i>	10,5-11,5
<i>Dosage</i>	Should be diluted in the ratio of 0.05% - 1% according to the tank capacity of the cleaning machines and the density of the dirt
<i>Packing</i>	20L= 20,4 kg PE Jerry can

### STARK

#### FLOOR CLEANING MACHINE CLEANING CHEMICAL

A multi-purpose cleaner for floor, wall and general equipment cleanings. Especially used in order to remove heavy industry oils and carbonized dirt. Used in the cleaning machine since it is foam-controlled. Cleans the surface without scratching. Does not leave trace and stickiness. Leaves a pleasant to the environment.

<i>pH (% 1)</i>	12-13
<i>Dosage</i>	Should be diluted in the ratio of 0.05% - 1% according to the tank capacity of the cleaning machines and the density of the dirt
<i>Packing</i>	20 L = 22 kg PE Jerry can
